EDUCATION

University of Washington

Bachelor of Science in Computer Engineering; Minor in Mathematics

Seattle, WA

Sept. 2023 – Jun. 2026

EXPERIENCE

Systems Team Consultant

UW Academic Technologies

Jan. 2024 – Present

Seattle, WA

- Administer and support 1,000+ macOS and 500+ Windows systems across campus, ensuring optimal uptime and system reliability.
- Designed and led deployment of a new Linux lab environment with Active Directory authentication.
- Pioneered the **first implementation at the University of Washington**, now featured in the official UW IT handbook.
- Collaborate with IT leads and staff on Agile projects to improve infrastructure performance and user experience.
- Diagnose and resolve hardware and software issues, maintaining detailed asset and ticket records for over 1,500 devices.

Teaching Assistant — Fundamentals of Computer Science II

Bellevue College

Mar. 2023 – Jun. 2023

Bellevue, WA

- Facilitated weekly virtual labs and office hours for 36 students, covering recursion, data structures, and OOP design.
- Guided students in implementing efficient algorithms using stacks, queues, and trees in Java.
- Reviewed assignments and projects, emphasizing algorithmic correctness, readability, and runtime optimization.

PROJECTS

Tic-Tac-Toe AI | *TypeScript, CSS, JavaScript, HTML, Python*

Jul. 2025

- Developed a full-stack web-based Tic-Tac-Toe game with an interactive UI and AI-powered computer opponent.
- Implemented backend logic in Python to process game states and compute optimal moves using the Minimax algorithm.
- Implemented three AI difficulty levels by tuning Minimax depth and pruning parameters, enhancing gameplay diversity and performance.
- Optimized user interface responsiveness using TypeScript, HTML, and CSS for smooth cross-browser experience.

DUET | *Dart, Flutter, Firebase, Spotify API*

Jan. 2025 – Mar. 2025

- Developed a web app that connects users through shared Spotify listening habits, creating real-world friendships based on musical compatibility.
- Engineered real-time chat functionality using Firestore to enable seamless in-app communication.
- Built using Dart and Flutter, integrating Firebase for authentication and data management.
- Constructed a scalable backend system leveraging Firestore and Firebase Auth for efficient user and data handling.

TECHNICAL SKILLS

Languages: Python, Java, C#, C++, JavaScript, TypeScript, HTML, SQL, Dart

Frameworks & Libraries: React, Node.js, Express.js, Next.js, Flutter, PyTorch, JUnit

Databases: MySQL, SQLite

Developer Tools: Git, GitHub, GitHub Actions, Docker, Microsoft Azure, Firebase, Linux, Bash, PowerShell, VS Code, Vercel, GDB

Additional Skills: RESTful APIs, CI/CD, Agile Methodologies, Jira, Figma, Web Security (XSS/CSRF Protection), Data Structures & Algorithms
